FYI, figured you should handle a call like this as it was generated by someone who viewed a school report.

Thanks,
Tracy Jo

Today I received a voicemail from Scott Chandler, Testing Engineers & Consultants, Inc., Troy, MI, 248-588-6200. He would like to talk to one of the staff involved in the water sampling and plumbing assessments done at the Flint schools. (He is working with a school district outside Genesee Co.) He would also like to discuss the data interpretation and recommendations that have been provided in some of the reports he's reviewed.
