Is there an actual memo, Liane? Heather just called me back and asked for a copy.

We discussed it, and agreed collectively we would not reject any FOIAs because of the litigation hold.

Sygo is out, sue voice is out, Richard is in se mich; can you help us assure the press that Mdeq is not rejecting foias based on presence of a litigation hold? Right now all I can say is the ag office and our lit holds are clear that they apply to the agency's retention of docs, no impact on whether a doc can be disclosed under FOIA.
