All,

Here is the template that I anticipate using on a weekly basis to share information with the group. This aligns with other weekly updates that are provided by our engineering team and gives a good overview of the system as a whole. This is likely more information than some want and I will modify the report as requested to make sure everyone has adequate information going forward. The report is geared toward bringing KWA online and the goal of providing clean safe water for the residents.

I cannot commit to delivering this every Monday but I plan to get something out each week. Please let me know if there are items missing or that you would like to see added.

As always, comments are welcome.

Thank you,

--
