I was on the call until it ended. Not calling back in.

We need to be clear that future sampling to determine exposure is not an admission that compliance sampling was done incorrectly. EPA should admit publicly that their sampling requirements under the LCR are the problem.

I've been keeping up as much as possible. Been in touch with Steve and Richard.
I'm planning to call in this morning at 10:30am.

 Subject: Re: Office of Auditor General - Drinking Water Audit

Thanks.

They've been in our office doing a preliminary review for months. Timing is probably unfortunate. Perhaps a good thing in the end.

Subject: Office of Auditor General - Drinking Water Audit

Dan, Jim, Maggie, Madhu, and Brad,

The Office of Auditor General sent the attached report to the legislature this morning indicating they will be doing an audit of the Office of Drinking Water and Municipal Assistance. One of their objectives is "to assess the sufficiency of ODWMA's oversight of the State's drinking water supply and environmental health programs."

Typically, the OAG is very good about discussing potential issues they see prior to releasing any report, but I wanted to make sure you are aware of the audit especially with everything going on with Flint.

Please let me know if we need to discuss.

Thanks,
 Amy
