Subject: Clarification of FOIA Request

To clarify/amend my FOIA request dated September 30, 2015:

I am looking for emails pertaining to violations of the Safe Drinking Water Act by the City of Flint from the beginning of the switch from the Detroit Water system to the Flint River as the main source of drinking water. In addition, I am seeking emails regarding the need for adequate corrosion control within the Flint water system.

This request includes all communications with Emergency Managers, Flint officials, the office of the Governor, the Department of Treasury and any other emails that pertain to the requested information.

In this e-mail, I am making you aware of what we know regarding the Flint lead situation.

1) They do not have an approved lead sampling pool. Only 13 of the lowest lead sampled homes from 2014, were resampled in 2015.

The homes sampling high in 2014, were not asked to be resampled.

At best, their program is sending out sampling bottles at random across the city.

2) This message exemplifies the type of site selection, that they are doing to satisfy their high risk LCR monitoring pool site.
