Subject: Re: Update on feeding
orthophosphate?

Not feeding yet, due to not
receiving the spill-containment
and electrical wiring change that
is complete now. This all must be
verified before we can start
feeding.

Thanks,

Hello Natasha,

Is Flint feeding corrosion
control yet? I know that Mike
said he "jar testing" was
ongoing as of last week. It
would be helpful to get an
update. Thanks very much!
