Subject: NOTICE_November Meeting Adjustment

Technical Advisory Team,

We have a request to reschedule the next meeting for Monday November 9th at 2:00 pm. This would allow our EPA representatives their best opportunity to be present at the meeting and I believe that would be a significant benefit to the team especially considering the technical nature of the next meeting.

I know this is short notice but please check your schedules to see if you can attend and plan for this final adjustment. We will still hold the meeting at Flint City Hall at 2:00 pm in the same location as the last meeting and I will have an agenda ready as part of next weeks update.

I will also check on the link to our test map and will make sure that it is working on Thursday.

Thank you,

--

Howard,

The link you'd provided for the map of lead test results is no longer working.
 Could you provide the updated link?

This is the link you had sent:

 Team,

The next Technical Advisory Meeting is set for **Wednesday November 18th 2:00 pm** at Flint City Hall. The previous date being considered was Veterans Day and we encountered several conflicts. There will be a call in number available and I will send an agenda prior to the meeting.

There is a significant amount of new information included in this weekly report and I expect that trend to continue as we move forward. Several of the items mentioned such as the specific dosing level of phosphate will become targets of discussion at this next meeting in order to thoroughly evaluate the pros and cons and to help with public information.

The testing map continues to have information added as it becomes available and on the weekly report we have inserted a data table that will be updated regularly as well. Please let me know if anyone is interested in additional data being reported.

Please be prepared to give input on the potential of a December meeting which would have to be December 9th or December 16th.

Thank you,
