Subject: RE: Use of SRF to replace lead service lines
Date: Tuesday, September 29, 2015 10:43:53 AM

In Section 5404(1), the Michigan statute outlines the qualification for assistance. It states "Water suppliers owning the following types of public water supplies qualify to receive assistance..." Based on this, we are unable to use the Michigan Drinking Water Revolving Fund to replace the lead service line on private property.

Subject: Use of SRF to replace lead service lines

Hi Dan –

Here's a quick answer to your question about using SRF to replace lead service lines. Under the federal SRF program, SRF funds can be used to replace lead service lines on both public and private property. (We don't know if Michigan rules allow for the use of SRF funding on private property, but presumably you know whether that's the case.) If you have additional questions, your staff can follow up with Steve Marquardt, Chief of the R5 Water Division State and Tribal Program Section. His number is 312-353-3214.

Please keep me posted on the time for the event later this week.

Thanks,

Susan
