Subject: RE: phone call regarding Flint's water

I will respond; however, I asked the city water utility staff if this person has contacted them...I will await their response prior to making the return call. If this person has not contacted the water utility, I will address their concern as best as I can and also suggest that they contact the water utility staff directly.

Subject: phone call regarding Flint's water

Hi Mike:

This person left a message on my phone regarding the City of Flint's water. He would like a call back.
