Steve,

I am reviewing the attached info from Dan Potter concerning the sizing of the raw water reservoir for the Genesee County WTP and have some questions/comments regarding the submittal. I will be available to discuss this with you – perhaps this Thurs.

Subject: GCDC WWS Water Treatment Plant Raw Water Reservoir

Mike,

Good morning, hope all is well there.
Attached is a memorandum outlining the Phase 1 raw water reservoir storage sizing that we discussed a week or 10 days ago, along with the 2000 - 2030 AAD demands from the 2014 DWRF Plan.
Please review and call me when you have a chance.

Thanks,
Dan Potter
