See attached DWSD news release with DWSD Director's statement on Flint's decision to commit to purchasing raw water from the KWA. In my discussion with Brent Wright, Flint WTP Supt., there is speculation (concern) of what may happen when the termination of the water service agreement with DWSD becomes effective on 4/17/2014. Current speculation is that DWSD may attempt to recoup their "stranded costs" by adding it to Flint's ready to serve and/or commodity rate for the remaining time that they need to purchase water from the DWSD (from 4/18/2014 -- till KWA water can be piped to the Flint WTP). I will pass along any further updates concerning this matter.

Michael Prysby, P.E.
District Engineer
Office of Drinking Water and Municipal Assistance
