Good afternoon,

Wondering if I can get a copy of the plan being set forth to remedy the water situation in Flint. Thanks!

Subject: Water in Flint

Hey Heather,

Attached is the letter we spoke about. This letter was sent to us from a constituent, Bob Swanson. He is concerned about the side effects the water can have, problems with their livers, kidneys, central nervous system etc., and wanted to know what kind of plan was set in place to remedy the situation.

Thanks!
