Attachments: Adding Extra Phosphate to Flint Water 03.pdf

You may want to take a look at this.

Please do not forward as this is a draft.

Subject: Phosphate Factsheet - NEW draft

Hi Liane,

Please see attached - updated version of the factsheet.. Jen and I are still planning to walk over at 2 pm.

I left in the background about sources of lead - but moved it outside the section of how the phosphate addition section.

See what you think - we will try again if needed.

Thanks
Kory
