I received a fax that was in my box this morning that I have attached. I also just got an email from an NPR affiliated reporter asking me about concerns expressed from to 2 CMU scientists.

Subject: Fw: pathogens

Hi Mark, do any of you know when this is, and anything about htis press brief noted below? I got wind of it just in the last hour or so. NPR already calling our PIO- we have not heard what this brief is about---we do have Marc Edwards studies that do not show any increase inOPs in his testing...I do not have DEQ results (but asked for them) and am looping in our CD group to help formulate any messaging in response--

Any thoughts your way?

E

Subject: FW: pathogens

Linda was on the original.

Eden - Do you know these two?

The purpose is to "alert the public" about pathogens in the water.
