George:

We began discussions this morning with the firm that will be collecting the water samples their name is Environmental Testing and Consulting (ETC). In addition to providing the analysis, will you also be supplying the collection bottles?

Subject: RE: DHHS samples

Just as a clarification, this for the cost of the analysis and not to be confused with the cost of the actual taking of the samples. That is to so say it does not cover wages for the person pulling the samples.

Hi Linda. George and I have discussed the multimedia analyses that DHHS is looking at for Flint. We agree that we are able to pay for the water sampling portion of these costs from the \$1M GF/GP that DEQ has received for this purpose. You can pick up the necessary sampling supplies, instructions and paperwork from the Lab.

Please use account number M99953606 on the Lab paperwork. This will route the invoices here to DEQ-RRD for payment.

If you have any questions, please don't hesitate to let me know. Thanks!

Thanks Anastasia. We're in a holding pattern right now waiting to see if/when the homeowner is willing to have us conduct a risk assessment, so no rush for now.

Hi George & Linda. We are in the process of setting up an account number for this purpose and will forward it asap. Linda, we will most likely need to pay the invoice here in DEQ as we hold the appropriation for the \$1M GF/GP. Does that work for you?

Carol/Kirby/George, this will be set up to one of the 3 new DWL account numbers that Kathy W. is setting up for this purpose.

Anastasia and Kirby,

I just got done speaking with Linda about a home in Flint that will be undergoing a review by DHHS to determine the source of lead exposure in the home.
