Then Lisa will need to change Street to Avenue on the document cover page.

If you say it was Avenue when you went there let's leave it as Avenue.

I'm deferring to Karen/Heather...Flint Community Web site for Freeman says Ogema Street, but the directions on the same Web site say Ogema Avenue and when we physically went there, it was on Ogema Avenue. Maybe it doesn't matter.

Thanks,

*Tracy Jo*

I made the update. Are there any other changes before I send a final PDF?

It's on Ogema Avenue...not Street.

Thanks,

*Tracy Jo*

Attached is the updated document.

Let me know if you need any additional changes.

**Importance:** High

Lisa, thanks so much for the quick turn around on this. It looks great!! I am wondering if we can make one edit this morning though.

For each Outlets "location" and "result" can we align them up vertically (purple line).
