Advisory Team,

Given the holiday scheduling, we are looking at Wednesday December 9th at 2:00 as the best opportunity to hold our next Advisory meeting. Please provide us with feedback on whether or not this is a convenient time for you to attend, we will give priority to our EPA partners in the final scheduling of the meeting.

I am also including a copy of our new NO FLUSH instructions that are now on all of our test bottles being distributed along with a draft copy of a letter that we plan to send to all residents that have been tested under the previous protocol. We will wait for comments on the letter prior to distributing it publicly.

We now have our City Hall lobby Information window staffed along with two screens. One screen will display information on water, filters, and testing, the other will display a video sent to us that demonstrates installation procedures with different filters.

Thank you,

--
