Subject: RE: Genesee County Health Department EOC 12/2/15

Hi Dr. Reynolds

I do not think water bottles for lead sampling are available at these locations. The City and MDEQ are coordinating bottle distribution and analysis. GCHD does not have bottles and I'm only aware of the availability at City Hall and the Water Plant.

The name, phone and address must be recorded on a form that accompanies the water sample when it is submitted for analysis, not recorded when the bottle is picked up by a resident. The samples are shipped off to the MDEQ lab in Lansing for analysis. I think the City may still be delivering water bottles to residents upon request, via their field teams. I'm not sure.

I hope this helps. Jim

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Genesee County Health Department (GCHD) will distribute an additional 100 water filters to the City of Flint for distribution at City of Hall.
- Besides all the water filter distribution occurring at the blood lead screening clinics and offsite exhibits by Genesee County Health Department's staff, the Health Department continues to distribute water filters at its Burton WIC clinic and continues to educate parents on lead in water issues. Distribution at the WIC clinic has been swift and additional inventory, another 100 water filters, will be added to the WIC distribution inventory.
- Genesee County Health Department will distribute a press release that supports Professor Marc Edwards, of Virginia Tech University's announcement that Flint residents do indeed need to continue to use water filters.
- After a through inventory of water filters, Michigan Department of Health and Human Services (MDHHS) will purchase more Pur replacement filters. As suggested by MDHHS staff, GCHD will inventory its supply of replacement filters and give inventory outcome to MDHHS.
- Genesee County Health Department will host blood lead screening clinics at Grace Emmanuel and Bethel United Methodist churches.
