Subject: Flint High Schools

Kirby,

I just spoke with Steve, so here is what we need for bottles for sampling the High Schools

2 Boxes of 150 each of 125 ml bottles
4 Boxes of 30 each of 1 Liter bottles

We will need 2 sets of forms, 210 forms per set.

Then we will need the usual in terms of rubber bands, markers, tubs etc.

Liane can provide you with the addresses for the High Schools.

Thank you!
George
