Hi Mr. Wyant,

In addition to the last email I sent, I wanted to clarify one more comment you made to make sure I clearly understand to which "protocol" you were referring.

In our interview, you said the following, "Simply said, the protocol that we were using - I do not believe it is protective of public health and therefore more needs to be done in our testing protocol to ensure that we're identifying risk. We're addressing lead exposure and we are dealing with the issue proactively. Flint deserves safe drinking water."

Are you referring to the method by which the state was testing for lead in the water when you use the word protocol in this statement?

Thank you for your help with these three questions.
Our story is scheduled to air December 16, at 9:30pm.

Sincerely,

Lori Jane Gliha
