We need to discuss this as a group, I am not comfortable with some of the statements made in this document.

Hello Jim, Liane, and Stephen,

MDHHS has created a one-page Phosphate factsheet that is in the final stages of review.

We would appreciate your review of this statement:

The City of Flint, MDEQ, and the EPA worked together to find how much phosphate is needed to help quickly coat the pipes with scale.

Is it accurate to include MDEQ and/or US EPA in this statement?

We are always open to additional comments and edits, if you have them.

We appreciate your attention to this request.
