Dear Mr. Ordway:

Thank you for your letter dated October 9, 2015.

We appreciate your offer to assist the State of Michigan in conducting an after action review with respect to the issues facing the city of Flint's drinking water system. Our current top priority is to ensure that we are protecting public health. We recognize that an after action review will be beneficial to our processes once we have had the opportunity to work through this initial phase. While we currently do not know any specific details of how we will implement the after action review we will keep you letter on file for further consideration once that process begins.

Once again thank you for your interest.

George L Krisztian
