Shelly,

I am still waiting on a conversation with the Flint schools superintendent, once that occurs we can move forward. I think it would make sense for LARA to contact the principals to work out the logistics once we've had the discussion with the superintendent.

I am certain that schools will be added to the list and we will make those names available as they come in. Since these requests will not necessarily be coming in all at once we may not be able to prioritize the additional schools as deliberately as we have with the original 13.

George

George - We are fine with the list and will put together our teams to begin. Is LARA responsible for contacting the principals at the individual schools to discuss schedule? Also it appears there is a possible mix of schools - public/charter (Brownell Stem Academy) on this list. I assume someone is reaching out to the other charters to be on the next list??

George,

I concur with the prioritization.

So, none of the schools are on known lead service lines? What does the notation that follows (e.g., 4"CI) mean?

Linda D. Dykema, Ph.D.

Importance: High

Linda, Shelly and Joe,

Please review and provide comment. The prioritization looks appropriate to me but I want to ensure we have consensus. Once I receive comments back we can finalize this as our priority list for the plumbing evaluation and subsequent sampling.

Thank you
 George
