I don't think so. The sampling event will likely be about 7 hours excluding travel so I will be pretty tired by then.

Ok. Will you be logging samples into LIMS when you return like last weekend?

Thanks,

Kirby,

Given that there will be two schools plus the 1 liter bottles, we will need to stack the tubs in the back of my car on the trip back. I will need either a roll of paper towels or aluminum foil or something similar that I can use to separate the tubs and avoid contamination.

Thanks George

George – We have the sampling kits for this weekend ready to go. There are a few boxes, plastic tubs, and paperwork on one of our flatbed carts.
