OK I think I got it now. The meeting that I was talking about was probably my standing Tuesday morning meeting with Shelly and Linda.

Sorry, I recall from yesterday you had scheduled a meeting to discuss the sample results – you sent us the spreadsheet for review. I see where the problem plumbing is located by sample tap. Perhaps you were discussing a teleconference with the Superintendent and others? Just making sure I am not missing anything.

Hi Lois,

I'm not sure I know which meeting you are talking about. I don't have anything like that on my calendar for tomorrow

George

George:

I didn't get invited to the meeting to discuss water sample results. Do you want me to attend for any of it tomorrow?

When does the team get together next before this weekend, or do you just send out an email with the details, meeting place(s), etc.
