Too bad they don't have to sample for arsenic.

They are the model type II supply. Collect their annual samples and pay their annual fee. I KNEW there was a reason why I hadn't heard of them! ☺

No, since it is a Transient. Once I get their WSSN we will look into this and into the fee payment history.

Would this well have been monitored for arsenic? Should it be since I assume it is in the Genesee/Lapeer area?

Thanks for letting me know.

Anita,
 Can you check watertrack on the sampling history of these good folks on Monday?
 Dana
