Dear Dr. Wells,

I received a call from Ray Mikelonis who also sent me this e-mail and attachments and asked who he could talk with about his product – to remove lead out of children's bodies. He received my number to start. I told him that I most likely will be forwarding to the Department of Human Health and Services for review and response. I have also informed Director Dan Wyant and George Krisztian of the call that I received today.

Please review and respond (or call) Mr. Mikelonis. His number is 517-575-0072.

Thank you for taking the time to review and respond to him directly.

Mary Beth

Mark Valacak, MPH: Genesee County Health Department

I heard the news article about the increased lead in children in some areas of Flint after the city switched water suppliers. This is simply advanced technology that was used by the Romans to purify their water adapted to work inside the body.

This is the product that is going to be available soon that I told you about that guy in East Texas was using that his strength increased 30% after 10 days. He is the guy whose ex-wife tried to kill him with arsenic. After 3 weeks on the product, he is now saying that maybe he should stop taking it because he does not know what to do with all the energy that he now has.

I have a nurse in her 60's from Albuquerque that started using the product and initially her oxygen levels were in the 60's and on supplemental oxygen, in less than a month she reported to me that now her oxygen levels are 95 – 96.

Sincerely

Ray Mikelonis
