Subject: Governor's weekly update November 9, 2015
Attachments: Flint Water update November 9, 2015.docx; Action Steps - Week of November 2-6; Daily Update - DRAFT DELIBERATIVE

Importance: High

Karen,

Please use the e-mails from Mike and Liane to fill in the spreadsheet covering last week. The word document that I attached covers additional topics that the Governor has requested.

In addition, we need to attach the final report for the plumbing evaluation of Freeman Elementary, the spreadsheet that consolidates the data for Freeman elementary and the spreadsheet that consolidates the data for samples submitted by Flint residents.

One additional piece of information to include on the report: Per Dr. Eden wells there was a total of 13, 649 filters that have been distributed to Flint residents.
