Subject: RE: Draft Governors Briefing - Flint Water
Attachments: Governor Briefing - City of Flint 10-1-14.docx; Governor Briefing - City of Flint 10-1-14.pdf

Importance: High

Attached are the Word and PDF versions of the briefing paper. Note that the briefing refers to ODWMA's policy and procedure that needs to be forwarded to the Governor's office with the briefing but not the monthly pumpage comparison chart that Steve attached to his e-mail. See the highlighted text, below, for a description of that chart.

Director asked that I send this to the Governor as soon as possible today.

Karen, can you please proof this morning and fix up a bit? Director said it was fine to send as is but I told him we would review first. Can you please help me with this, this morning? I can send out. **(just the Word Document to fix up)**

Thanks.

Subject: Draft Governors Briefing - Flint Water

Director Wyant,

Attached is our draft of a briefing for the Governor's Office regarding City of Flint water system boil water advisories. This is per your request following our meeting last Thursday 9/25.

I have also attached a copy of the policy ODWMA-399-022 which specifically provides guidance regarding boil water advisory situations, and a chart showing the significant increase in the City of Flint's water demands following the extreme conditions experienced this past winter.

If you have any questions or need any additional information, I will be in Lansing this week on Thursday afternoon and Friday morning, and as always you can reach me on my cell phone as listed below.

Stephen Busch, P.E.
Lansing and Jackson District Supervisor
