Subject: Legislative Inquiry

Maggie,

While I am not withdrawing my FOIA, I am willing to clarify my intent informally as a legislative inquiry. I would like all communications between the City of Flint and the MDEQ referencing the use of the Flint river as a Water source including copies of emails. I would also like all internal communications referencing Flint drinking water between individuals employed by the MDEQ or working on their behalf. I would also like any communications between the MDEQ and all other government employees or elected and appointed officials at the state and federal level if anything to do with Flint drinking water was referenced. I would also like any documentation your department has on Flint using the Flint River as its primary water source, as well as any studies or information on the quality of the Flint River or any reference to contamination or treatment of the Flint River as a primary source. For all of the information requested please also include any and all drafts of documents and communications, even if it was a draft for a document that was never published or made public. For all of the requests listed above, please send information that was created or drafted on or after January 1st, 2011.

Thank you,
Phil Phelps
