Subject: RE: Draft Agenda - ODWMA Lansing/Jackson District Management Visit

Sounds great. I'd like to see the Alma plant since I've not been there before. But I can be flexible.

Agenda looks good too. We can keep our remarks to a minimum. Typically, we fill the space allotted.

Subject: Draft Agenda - ODWMA Lansing/Jackson District Management Visit

Attached is a draft agenda for the July 8 ODWMA Management Visit for Lansing/Jackson

As you can see I would like to spend time having staff highlight some of the work that has been going on in our district, but if you would prefer more than an hour to cover management issues please let me know. Or if you have a particular item you want added to the agenda.

For the afternoon field trip there are two options available:

- Alma WTP Expansion (limited construction is currently underway) + transmission lines & contamination sites
- Lansing BWL Wise WTP Reconstruction (Project is substantially complete)
(KWA Pipeline construction is not currently underway)

My preference would be to visit Alma, but if there is a need to stay close to the office that day we can do LBWL.

I will also take any input on lunch suggestions. Perhaps something on the east side of Lansing that allows those headed back to Jackson after the morning session to still all go out together?
