I agree having a contact is a good idea and thanks Pat for volunteering.

Clarification, are we using electronic signatures or are we circulating the letter. Electronic signatures (i.e. pdf) would clearly be quicker.

It is a little tough to provide the Ohio EPA letterhead right now as we are changing Governor and Director over the weekend.

Jerry,

Thanks again for pulling this final together. Indiana is OK with sending this version. I have one suggestion for the last paragraph: should we put in a contact in case EPA wants clarification of one or more of our points? Since I bought it up, I'll volunteer to be a contact and would work with all of you to answer any question EPA may have. I'm also open on this and will go along with what we all decide on a inserting a contact.

I'm OK either way on letterhead: blank or the collective logos. I'll send our logo if we decide to go that way.

I'd vote for some sort of electronic signature, but will go along with what the group decides.

As soon as we all approve of the final, we should give it to Region 5

My signature block is:

Patrick Carroll, Chief
Drinking Water Branch
Office of Water Quality
Indiana Department of Environmental Management

Importance: High

Good morning all

Attached is the final draft (yeah and a toss of confetti). The letter still needs formatting and that task has been given to our support staff. The track change is still on in case there are still changes to be made. Can everyone please send me their signature block. If you have already done so can you please resend as a couple of my archive email files were lost and I have someone trying to recover them. It will be faster if you resend the signature block.

Do we want the letter to go out with out a letterhead? One option would be to paste the logo from each state at the top of the letter.

Do the directors want to route the letter for signature or use electronic signatures?

Are we okay to send an advance copy of the letter to Region 5?

Thanks

Jerry
