p. 11-12 NEWS 9/13

Thank you.

I see 4 sampling protocols in the file you sent me (on pages 1-8, 9, 11-12, and 13-14). Can you please send me the dates when these sampling protocols were in use (as well as if they continue to be in use)?

Ms. Lambrinidou,

We have received payment confirmation from our Cashier's Office, so attached is a PDF of the DEQ's records for FOIA 0510-16.

If you have any questions, please contact us. Thank you.

Drinking Water Lead & Copper Sampling Instructions

Thank you for helping to monitor for lead and copper in your drinking water. It is important that you follow these instructions so that we may collect an accurate measurement of the lead and copper in your drinking water. This sample is supposed to represent the water you would typically drink and the faucet from where you would drink the water. Call your water supply if you have any questions.

1. Select a faucet in the school that is commonly used for drinking. DO NOT sample from a laundry sink or a hose spigot.
2. The DAY PRIOR to collection, flush the COLD water for at least 5 minutes at the selected faucet. Then let the water sit for at least 6 hours before you plan to collect the sample. If you have a single handle faucet, turn it to the COLD side. DO NOT use this faucet again until it is sampled.
3. Wait at least 6 hours before collecting your sample. Collect the sample prior to occupancy the next morning. Stagnation periods longer than 24 hours may not be representative of normal use.
4. Fill the sample bottle to the neck with the "first draw" of COLD water from the faucet that you flushed at least 6 hours previous.

5. Please answer the following questions:

- a) Did you flush the water for at least 5 minutes and let it sit unused for 6 hours before you filled the bottle? ☐ Yes ☐ No
- b) What date and time did you flush the faucet? Date _____ Time _____ P.M.
- c) What date and time did you fill the bottle? Date _____ Time _____ A.M.
- d) Did you fill the bottle from the same faucet that was flushed 6 hours before? ☐ Yes ☐ No
If NO, please explain: _____
- e) Which faucet did you use to fill the bottle? ☐ Kitchen ☐ Main Bathroom ☐ Other
If OTHER, please describe: _____
- f) Is this faucet connected to a treatment device such as a water softener, a reverse osmosis unit, an iron removal device OR is any kind of additive used in the school? ☐ Yes ☐ No
If YES, please describe: _____

Your Printed Name _____

Your Address _____

Your Signature _____

6. Attach this form to the bottle and contact the individuals listed below for pick-up.

If you have any questions call:

Local Health Dept.: Genesee County Health Dept.

Contact: Mr. Jim Henry, EH Supervisor

Phone: 810-257-3618

Or contact:

Michigan Department of Environmental Quality

DEQ contact: Mr. Michael Prysby

Phone: 517-290-8817

Thanks again for your help. We will send you the results once available. Contact the personnel listed above if you have any questions.
