Nancy and Stan

Please review dr Mona Hanna-attisha's PowerPoint attaches. We may be asked to provide cost estimates to some of these activities.

Thanks

Rashmi

Please find attached the PDF from Dr. Hanna-Attisha's presentation to several members of the After Action Report Team. Her presentation was very informative. Please note her recommended potential next steps beginning on page 32, especially the secondary prevention interventions beginning on page 41. We need to begin looking at her recommendations, compare them to ours and begin costing out some requests.

Thank you for the presentation and your approach to this. When you can please share a version of the presentation I can pass in to Sue, Eden and the others in my Population Health area.

Nick

Mr. Baird and all the other guys,

It was a pleasure meeting everyone and a privilege to present to you all. As I said, we have an incredible and unique opportunity to mitigate the impact of this population-wide exposure. If we act now, proactively, we can buffer our kids from the life-altering impacts of lead poisoning.

Flint has many claims to fame (we put the world on wheels, we birthed Mr. Baird!, etc); and now, with your leadership, we can continue to build generations of strong, smart, and healthy children.

If I can be of any further assistance, please don't hesitate to contact me. Email or cell **PPI**

Thanks again, Mona
