Subject: RE: Revised lead analysis

No need to work on the weekend or get excel tables today. Let's address things on Monday.

Subject: Revised lead analysis

Hi all,

I deduplicated to year for the state. I have SAS output for 2010-2015 by agegroup and by Michigan, Genesee, and Flint. By quarter and then broke 2015 to 1/1 to 9/30 and 10/1 onward.

I can share the SAS output with you, but I'm entering into excel, which will be easier to read.

The hand entering is going slowly, so I may not have the excel tables ready by this afternoon.

I also want Yan to double check the code that I modified to create the yearly datasets.

So rough numbers I can provide today, something more polished probably won't be available until Monday. Unless I work on it during the weekend.
