Good morning,

We have a conference line available at 1PM this afternoon. Shall I schedule for 1-2PM?

Thank you,

Janese Bouters
 Executive Secretary to Corinne Miller
 Bureau of Disease Control, Prevention and Epidemiology
 Michigan Department of Health & Human Services
 201 Townsend Street
 Lansing, Michigan 48913
 Phone: (517) 335-8731
 Fax: (517) 335-8263

Hi Mona,

I talked with Corinne just now.....do you still have time at 1? Janese can set up a conference call---

Eden

sounds good. as of now, I can talk tomorrow before 8:30am, 1-2pm, or after 3:30pm

FYI I am working with Hurley Children's, MSU, and maybe the GCHD to create a sort of Pediatric Public Health Collaborative that would house the ongoing assessment/long term followup/research/continued monitoring that we are doing as well as some of the secondary prevention interventions which include all of peds public health. The team will include part of me (30%), research support, epidemiologist, GIS, toxic stress researchers, etc. The reason I wanted to include the health dept was primarily for access to data - like the BLLs - but also to prevent redundancy of interventions. MSU and the health dept already have an academic health dept relationship, but I don't think it includes data sharing.

I like that idea- and I don't foresee an issue with such an agreement. I hope you understand that this is just one form of a surveillance report, and there can be others- but we really wanted to get the testing data started.

Shall we discuss with State Epidemiologist-/could set up call even tomorrow- will share your request with Nick right now
