Hi all,

Some of these are a repeat. Lead by zip code for 2014 is my file and is new. I ran this today to compare to Bob's numbers. Bob's file is "2014 zips"

The 'Documenting the SAS code' file walks through the numbers from the raw dataset to the final analytic file that Yan and I used.

Bob has 143,123 for 2014 and I have 141,355 for children less than 6 years.

Any thoughts. I would like to send the 'Documenting the numbers to Bob/Martha/Junaid ASAP.

Patti

Is there anything I can do to step on the warehouse to give Junaid access? I don't know if Martha sent in the form indicating permission needed to be granted ASAP.
