FYI. Please see below email thread. Sandi Mose, our MDHHS Genesee County Director, has been called in for a meeting tomorrow. She is the person who would respond to the local EOC as the Human Services lead in their command structure. She will let all of us know what comes out of it.

I think you can share that we are still distributing filters, pitchers, and replacements at four sites during normal business hours. When requested, GCCARD/DHHS has provided filter distributions after hours or at town hall meetings.

The number of requests have lowered down to around 800 to 900 per month. (Average per day = 35 requests)
