Subject: RE: Flint Water Emergency

I think you can share that we are still distributing filters, pitchers, and replacements at four sites during normal business hours. When requested, GCCARD/DHHS has provided filter distributions after hours or at town hall meetings.

The number of requests have lowered down to around 800 to 900 per month. (Average per day = 35 requests)

<http://topics.mlive.com/tag/flint-water/>

I am certain you have heard that Flint's Mayor, Karen Weaver, has declared a state of emergency.

I have just been contacted to attend a meeting tomorrow at 10 a.m., where key local agencies are getting together at the Emergency Operations Center to discuss needs that will be directed to the state.

Do you have anything you can share? Resources, etc?

If not, I will certainly let this group know what comes of our meeting tomorrow.

Sandi
