Subject: UPDATE: Flint Water Emergency

All-

You may already be aware of the information below but I wanted to provide you with a heads up.

I have received a message from Chris Dr. Air andi - Genesee County acting Emergency Manager that there is a 50% chance that Genesee County will be declared in a state of Emergency. He indicates that with this declaration we have 12 hours to perform a damage assessment (i.e. Human life damage assessment).

He also indicates that he would like to have Dr. Eden Wells on his team.

I will update this group as I receive information.

Sandi

Subject: RE: Flint Water Emergency

Thanks Richard and Jacqui,

I have a standing appointment with the DEQ, LARA, and the city of Flint to meet at 10:00 am every Friday. George Krisztian, DEQ facilitates the meetings: the mayor, city administrator, and the Flint DW manager are typically in attendance, as well as Eden Wells. Depending on the agenda, I either call in or drive to Flint for the meeting. Today's agenda was supposed to be all about engineering so I was planning to call and just listen in.

I just spoke with George. He was unaware of the Department EOC meeting. I'll let you know if I hear anything more on the EOC meeting during our call tomorrow week. Have a good

I will forward yesterday's letter to Sandi Kay Mose so she has information about HHS activities.
