Subject: FW: 2014 lead data
Attachments: ziplist2014 12.28.15.xlsx
Importance: High

In response to requests for more detailed information on data by zipcode, attached is a file of 2014 list of lead data with numbers screened and numbers confirmed by zipcode. All sizes less than counts of 6 are suppressed. All data include both venous confirmed and venous plus undiagnosed capillary in the attached spreadsheet.

I talked with Jennifer Eisner and here is what we need:

Only the 2014 data (not 2015 since we don't typically release a year's data before the year is completed), by zip code for all of Michigan with small cells suppressed. And only confirmed venous tests as CLPPP has done for previous years: we'll explain that we're including capillary tests in the final reports in an effort to capture all possible EPLL children.

Could I please have an estimate on when this can be done?

Ok, I deleted all the chatter in-between.

I believe the request is for annual 2014 and 2015 (not by quarter) for all Michigan zip codes (suppressing cells less than 6). The data provided should match what we're reporting to the Director/Governor, so retain the highest test whether venous or capillary.

Jennifer/Geralyn: is that accurate?

To clarify you want 2014 by zip code and quarter with retaining highest test? Or only highest venous test?

Im still in a meeting and may not get this done today. Will also talk to Yan to see if she is available.

Patti
