Marc,

Turns out you should submit an IRB review application to MDHHS. The application is available at www.michigan.gov/irb. It should be submitted to me, and then I'll add my info as "responsible employee" and submit it to the IRB board.

Bob

Yes, I think there is clearly some urgency to the situation.

MDEQ has publicly stated that your blood lead records, are showing that there is no public health concern for residents in Flint.

The levels of lead in Flint water, that we are finding in our water sampling, are certainly in a range that can cause childhood lead poisoning.

Indeed, one child has already, likely been lead poisoned from exposure to high lead in water.

I think the fact that you already have other teams working on these records, indicates a high level of interest, and urgency.

Congressional interest in the safety of the water is also very high, and this will be an important issue in deciding options for treating the water, in the weeks and months ahead.

Best Regards,

Marc

Maybe. My contact at Legal let me know the other day that he's unusually busy with other matters right now, so his review of DUAs might be delayed unless there was a specific reason for quicker action on his part.

If you are in need of a reasonably-quick turnaround—i.e., a week rather than a month or so—then please send me a paragraph explaining why. I'll pass that along with your DUA.

If you're not in a hurry, then I'm all set for now—I'll submit your DUA as is.

Robert,

Can you confirm that you received the e-mail below, with the request for blood lead data on Flint?

Hi Robert,

I would like to repeat the study I did below, but updated for Flint Michigan, Genesee Country Michigan, and Detroit.
