Subject: Lead level data

Good morning Mr. Scott .

Thank you for your timely response. I have reviewed the graphs with our GCHD and Dr. Mona Hanna-Attisha of Hurley. Is it possible to stratify the data by age -under 15 months, 16 months to under 6 years of age , over 6 years. Also can we get the most recent data for 2015.

At this point we will work with our patients to educate them.

Breast feeding is first choice .

I understand different filters do different things for lead , and not all get lead clumps from leaching pipes so we will not emphasize them.

We will try to get WIC to cover bottled water and encourage using water from outside the city system

Our goal is to give the most consistent correct information.

Are there any plans for public service announcements from the state ?

I am asking you to cc my reynolds@mottchc.org email along with lrey52@ gmail so I can access from anywhere.

Lawrence Reynolds
