Hi Angela,

After looking at the data Kristi send you and talking with Sarah, I realize I do not have access to the data I need to answer her specific question about significance. I won't be able to get access before Monday.

Sorry I wasn't able to be helpful right now,
Cristin

Angela,
 Is it possible to speak to an epidemiologist before the end of day today?
 Thanks!

Hi Angela,
 Thanks for the feedback yesterday. I took a look at the numbers last night that you sent over and the year over year increase between 13/14 and 14/15 is statistically significant $p < .05$
 Can you ask you epidemiologist to confirm? Also, is this the first significant increase that Flint has seen for this cohort?
 Thanks!
 Kristi
