HI Eden, we don't have a phone number for the family, couldn't find it with an internet search. Do you have Linda's phone number that I call and can see if she has it, or could you check with Linda?

Hi Nancy – just talked with Linda. Please have your program nurse call if you can this evening, if you think that will work out. Thanks so much for working so late.

I have also been thinking about the family, and that they would probably want to know the results tonight. Can we make a call to them tonight? I don't know if Linda will see this tonight. Linda, did you make a plan to call them back, or do you want our program nurse to make that call?

Good afternoon – we have received test results from the lab for the family whose situation we discussed at 8:30am. Both parents and all 4 children have levels < 3 based on venous testing (basically, < 3 means below the detectible limit). Good news for all!

From Linda Dykema:

I just spoke with the dog's owner and have his contact information.

They live in 48503 and they are on Flint water.
