Subject: Re: URGENT:

A clarification – Geralyn will also provide the her input on the drafts that were set up on the letters last evening and I just center the updated testing protocol that Emily did. Thanks so things are moving!

Hi folks,

On phone with Geralyn, our Communications-

She feels the letters need a time component "The week of---, we will...". At least a loose time frame. SO providers and parents know that they should be approaching this now, not later.

Also---

TOni, how fast can you turn the provider letters/resources around and get them out on your listservs? To whom can MDHHS send (we think we would send to our Health Plans, etc) that would help GCHD ensure we hit all providers?

Also, Does GCHD have a list of parents---How do we reach the parents of head starts, early starts, day cares, etc??? Will schools be sending out these letters too? We may be able to get lists from MDE....

Subject: New Flint workgroup documents on CLPPP Sharepoint

Good morning,

Several new documents have been added to the **Draft 2 Folder** in the Flint workgroup sharepoint.

Parent letter: DRAFT VERSION 3 of parent letter has been added to the folder. I apologize, but for now it is in the Draft 2 folder.

Testing Protocol. A new testing protocol document has also been added to the draft 2 folder for review.

If you have questions, please feel free to contact me.

Emily
