

- As requested by the state of Michigan, Chris Mann of GCHD made all the requested changes to the water filter system database.
- DaVita Dialysis Center has requested 100 water filter systems. Filters will be dropped off Wednesday, October 14.
- Genesee County Health Department will be delivering 100 water filters to Planned Parenthood on Monday, October 19.
- City of Flint Schools' Superintendent is reaching out to his principals requesting input on the distribution of the water filter system to staff and families.
- Dr. Laura Carravallah reached out to Marc Edwards of Virginia Tech regarding the copper levels in the Flint water. Marc did test the Flint water and copper levels in the water are within EPA standards.
- Nursing Director, Toni LaRocco, is finalizing plans for an upcoming lead clinic with McLaren Health Plan on November 5. Toni and staff are in talks with Molina Healthcare of Michigan to schedule another lead clinic.

Subject: RE: Genesee County Health Department water filter system daily mass notification - 10.14.15

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Chris Mann and GCHD Community Health Director, Tamara Brickey, are working with the State to insert more field information to the current Excel water filter database.
- GCCARD's Lippincott location does not have stable internet connection and because of this, staff are not using the most up-to-date water filter system Excel file. The State is gathering this information and will send Genesee County Health Department their Excel database and we will upload the data on a daily basis.
- Tamara has made contact with Flint Schools. She will make arrangement with staff and student's families to receive a water filter system. A date for the filter distribution to staff and student's families has not been set.
- Jim Henry, GCHD Environmental Health Supervisor got a call from State. They are looking for our staff to do another round of sampling at all Flint schools who receive city of Flint water.
- Planned Parenthood will receive 100 water filters for distribution to their clients.
- GCHD will be making contact with the Disability Network to continue planning to reach the disabled population within Flint that need assistance obtaining a water filter.

- MDEQ reached out to the CDC regarding the effects of bathing in water contaminated with lead. The experts are looking further into this matter. See attached FAQ Flint Water Fact sheet.
- Dr. Caravella of GCHD's Board of Health is concerned whether the distributed water filter systems will remove copper. She is concerned about individuals in the community who have a rare condition related to copper.
- Jim Henry is working to receive lab results in a timely manner.
- GCHD Director of Nursing, Toni LaRocco had a conversation with various individuals from the State regarding blood lead clinic. Toni is working to implement an upcoming lead clinic for children, 0-5 scheduled with McLaren Health Plan. Toni is reaching out to the University of Michigan – Flint to have students and faculty present at all clinics. Toni is working on other locations to host clinics with other health plans. The first message for people should be that the first choice in testing should be at their primary care provider.
- FAQs regarding lead and water for providers and public will be released in future from MDHHS.
- As of October 13 the total distribution for both DHHS and GCCARD is 8447.
- 336 filters and pitchers were distributed on 10/13 by DHHS and GCCARD.
- Daycares also began picking up filters and pitchers on yesterday as well from GCCARD.
