Here is a proposed agenda...feel free to weigh in on other items we should discuss.

Specific to Legionnaires' disease:

- What type of assistance (if any) is being requested? (State and County HD)
- What is the role of EPA and what assistance has been provided so far? (EPA)
- What is the role of ATSDR and what assistance has been provided so far? (ATSDR)
- If additional federal assistance is needed, what can CDC offer? (CDC)

Thanks everyone!
