There are actually 5 people at the Health Department with permissions to send messages on the MIHAN. I would be happy to do it, provided I was given the exact message/attachments to send.

Also -- in Genesee County, the MIHAN is not widely used by the medical community. I did a quick search of Genesee County located users with medical/healthcare, etc. as one of their roles. Of the 45 users that came up, @21 of them are staff at long term care/skilled nursing facilities. Of the remaining, most of them are hospital staff (administration and/or ER staff) or Hamilton staff. There is only one pediatrician that I know of from Genesee County on the MIHAN.

You each received, along with Eden Wells, what I received from the Genesee County Medical Society. I had sent this earlier there to Pete Levine, so I am thinking he sent this out to all members.

April, you would probably have to put this on the HAN alert.

It is harder to make contact with the Genesee County Osteopathic Society, but I will keep trying.

Toni, what other "providers" were you thinking about?

Hi Dr. Johnson,

Eden Wells just contacted me wanting to know if the information for providers to do enhanced testing went out blast fax to the Flint providers? Also, can we do that again blast fax, MiHAN and through the Medical Society.

Toni
