Subject: Re: CDC-GCHD Call

Hi Suzanne

It was good to speak to you yesterday. I am copying Laurel on this email as the contact for the legionella program. She will coordinate with the state to make sure you have the protocols.

We are glad to assist.

Jonathan

Jonathan-

Thank you and your team for the opportunity to speak yesterday. We appreciate your comments about a measured response. We recognize we do not have the data we need for further action. We were grateful for the opportunity to share with you and our state colleagues our concerns based on the information we do have. We are doing everything we can to mitigate risk to our residents.

We look forward to receiving the sampling protocols and advice related to syndromic surveillance. Our concerns have now been communicated which opens the door to further communication as events unfold.

We are dealing with complex and confounding information. We appreciate your assistance in gathering the facts. We want to be prepared to protect the health and safety of our residents and provide appropriate information.

Thank you again.

Your Genesee County Colleagues
